

DIGITALIZED! MASTERCLASS

**Doctoral School in the
Social Sciences**

TITLE: APPLIED STUDIES ON COLLABORATIVE INFORMATION BEHAVIOUR IN A DIGITAL ENVIRONMENT

**DR HAB. REMIGIUSZ SAPA, PROF. UJ
JAGIELLONIAN UNIVERSITY, KRAKOW**

FOR WHOM?

For anyone who would like to effectively and efficiently improve the practice of collaborative information behaviour in various contexts (e.g. in companies, institutions, research and project teams, etc.) with the use of scientific research and scientific knowledge.

WHAT IS THE GOAL?

To learn or develop the ability to design applied research to diagnose or improve collaborative information behaviour solutions in digital information environment.

Applied research is understood here as any investigation using scientific methodology to acquire new knowledge (or to use previous scientific achievements) with the direct aim of changing any specific and particular aspects of reality in a desired direction or deciding not to change it at all.

Collaborative information behaviour (CIB) comprises any information behaviours in task-oriented groups working together to achieve common goals. It includes behaviours that are exhibited when people work together to:

- identify their information needs
- seek the needed information through searching and sharing information
- use the information found to achieve the intended goals
- manage of acquired information

DATES AND TIME

1st Session:
**April 13,
15:00-18:45**

2nd Session:
**April 20,
15:00-18:45**

WEB PLATFORM

Microsoft Teams

PARTICIPANTS

15 PhD Students

Please send your application to
Danuta Wisła -
danuta.wisla@uj.edu.pl.
Deadline for applications: 5th April
2021.
Requirements: the status of PhD
student in one of Una Europa
universities, order of applications.
