

Una Europa Mobility Cluster

Contact list for questions regarding funding to participate in Una Europa summer schools

All Una Europa summer schools taking place in 2025 take the form of an Erasmus+ Blended Intensive Programme (BIP), combining a short in-person programme with online components before and after to connect participants and facilitate collaborative working. BIPs are eligible for dedicated funding through Erasmus+.

Please note: Erasmus+ funding for BIP mobility is not available for doctoral researchers at KU Leuven. Doctoral researchers at Edinburgh and Zürich are not eligible for Erasmus+ but may receive alternative funding from their home university.

If you have questions about your funding options for participating in an Una Europa summer school in 2025, please get in touch with your institutional contact:
