Teams4Her - Una Europa Transnational Research Teams: Tackling the Concept of Heritage in the urban peripheries

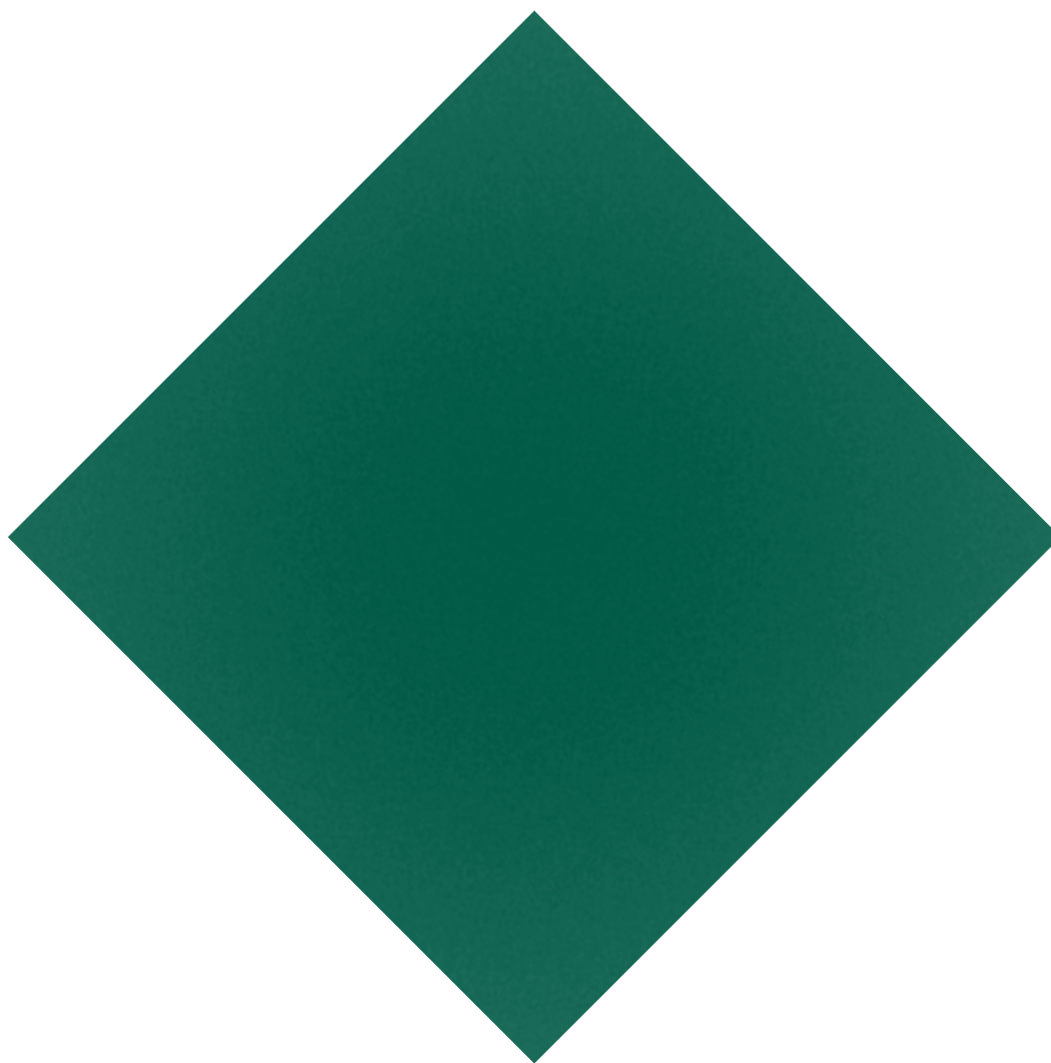

Teams4Her aims to consolidate the four transnational research teams initiated under the Una Europa Cultural Heritage Focus Area. Taking the topic, “Cultural Heritage of the Peripheries” as a common and transversal theme, the project will develop and implement new activities bringing together the alliance’s Cultural Heritage community of researchers and doctoral candidates. The project capitalizes on the work already undertaken in the framework of the transnational research teams, which comprise approximately 150 researchers across eight Una Europa universities, in addition to related projects such as the CUTE Una Europa Seed Funding project; JPI Cultural Heritage and HORIZON projects (under preparation). The Chairholder will take an active role in structuring the transnational research teams through the organization of collaborative activities including workshops, blogs, research projects, academic papers and more. These activities will explore the topic of “Cultural Heritage of the Peripheries” from the perspective of the four transnational research teams: Mobility and Migration; Digitization of Society; Social Capital; and Safeguarding Cultural Heritage.
